Dear students

As part of the research project SUSPLUS we are currently studying students' understanding of the Sustainable Food System concept and their expectations towards education within this subject. This is why we are inviting you to take part in this survey – we would like to hear your views!

The survey is being carried out at all universities of our project partners at the same time. These are: Estonian University of Life Sciences, Estonia; FH Münster University of Applied Sciences, Germany; ISARA-Lyon, France; University of Copenhagen (UCPH), Denmark; University of Gastronomic Sciences, Italy; University of Kassel, Germany; Universidad Politécnica de Madrid (UPM), Spain; Warsaw University of Life Sciences (SGGL), Poland.

The results of the survey are intended to help develop new courses and adapt existing ones. The collected data are used for this purpose only.

Answering the questions takes about 10 - 15 minutes. Please answer all questions, as this is the only way to get representative results. Participation in the survey is voluntary. Personal data are not collected; the processing of the answers is anonymous.

You can participate in the survey until dd.mm.yyyy. Note that you can only participate once. We recommend that you take the survey in one sitting. If you have any questions, please do not hesitate to contact us by email.

Thank you for your participation and completing our survey!
